2	Crosstabulations with Type of Institution	10
2.1	Type of instituion	10
2.2	Institution has a faculty union	10
2.3	Institution funds research and development	11
2.4	Institution funds publications	11
2.5	Institution funds meetings, conferences, and/or professional responsibilities	11
2.6	Institution offers a formal or ad-hoc retirement plan	11
2.7	Institution provides retired faculty with medical benefits	12
2.8	Department offers Terminal MA degree	12
2.9	Department offers Master's degree	12
2.10	Department offers ThM degree	12
2.11	Department offers PhD degree	13
2.12	Department offers ThD degree	13
2.13	Department offers StD degree	13
2.14	Department offers DMin degree	13
2.15	Department offers MDiv degree	14
2.16	Department offers MTS degree	14
2.17	Department offers STM degree	14
2.18	Department offers DMiss degree	14
2.19	Department offers MPhil degree	15
2.20	Department offers DHL degree	15
2.21	Department offers Rabbinical Ordination	15
2.22	Department offers certification	15
2.23	Total funds allocated by institution to department	16
2.24	Number of faculty members hired with tenure over past 5 years	16
2.25	Number of faculty members hired to tenure track over past 5 years	16
2.26	Number of faculty members hired to non-tenure track over past 5 years	17

2.27	Approximate number of new (non-replacement) faculty position expected to add over next 5 years	17
2.28	Number of faculty members considered for tenure over past 5 years	17
2.29	Number of faculty members granted tenure over past 5 years . . .	17
2.30	Number of faculty members who retired over past 5 years	18
2.31	Number of faculty members who left department for another institution over past 5 years	18
2.32	Number of faculty members who left for other reasons (laid off, not granted tenure, resigned, etc) over past 5 years	18
2.33	Number of course that constitute a full-time teaching load . . .	18
2.34	Institution provides a housing allowance for full professors . . .	19
2.35	Institution provides a housing allowance for associate professors	19
2.36	Institution provides a housing allowance for assistant professors	19
2.37	Institution provides a housing allowance for instructors	19
2.38	Institution provides a housing allowance for lecturers	20
2.39	Institution provides a housing allowance for visiting professors .	20
2.40	Institution provides a housing allowance for ordained ministers/priests	20
2.41	Mean salary for full professors	20
2.42	Mean salary for associate professors	21
2.43	Mean salary for assistant professors	21
2.44	Mean salary for instructors	21
2.45	Mean salary for lecturers	21
2.46	Average number of applicants to program over past 5 years . . .	22
2.47	Average number of applicants offered admission over past 5 years	22
2.48	Total number of applications to program	22
2.49	Number of applicants offered admission	22
2.50	Number of applicants who also received an offer of financial assistance	23
2.51	Number of applicants who accepted offer of admission	23
2.52	Number of admitted applicants considered top applicants who accepted offer of admission	23
2.53	Number of males who applied to program between Fall 1995 and Summer 2000	23
2.54	Number of females who applied to program between Fall 1995 and Summer 2000	24
2.55	Number of males admitted to program between Fall 1995 and Summer 2000	24
2.56	Number of females admitted to program between Fall 1995 and Summer 2000	24
2.57	Number of males who began program between Fall 1995 and Summer 2000	24
2.58	Number of females who began program between Fall 1995 and Summer 2000	25
2.59	Number of males who left program between Fall 1995 and Summer 2000	25

2.60	Number of females who left program between Fall 1995 and Summer 2000	25
2.61	Number of males who received doctoral degree between Fall 1995 and Summer 2000	25
2.62	Number of females who received doctoral degree between Fall 1995 and Summer 2000	26
2.63	B.A. is required/recommended for admission to doctoral program	26
2.64	B.A. in religion is required/recommended for admission to doctoral program	26
2.65	M.A. in religion is required/recommended for admission to doctoral program	26
2.66	M.A. in related field is required/recommended for admission to doctoral program	27
2.67	Master of Divinity is required/recommended for admission to doctoral program	27
2.68	College transcript are required/recommended for admission to doctoral program	27
2.69	GRE scores are required/recommended for admission to doctoral program	27
2.70	Letters of recommendation are required/recommended for admission to doctoral program	28
2.71	Personal statement or application essay is required/recommended for admission to doctoral program	28
2.72	Writing sample is required/recommended for admission to doctoral program	28
2.73	Foreign language proficiency is required/recommended for admission to doctoral program	29
2.74	Computer proficiency is required/recommended for admission to doctoral program	29
2.75	Campus visit is required/recommended for admission to doctoral program	29
2.76	Interview with faculty member is required/recommended for admission to doctoral program	29
2.77	Other requirement/recommendation for admission to doctoral program	30
2.78	Yearly tuition for an in-state student (public institution)	30
2.79	Yearly tuition for an out-of-state student (public institution)	30
2.80	Yearly tuition for all students (private institution)	30
2.81	Tuition aid was available to incoming students	31
2.82	Stipends were available to incoming students	31
2.83	Loans were available to incoming students	31
2.84	Fellowships were available to incoming students	31
2.85	Teaching assistantships were available to incoming students	32
2.86	Research assistantships were available to incoming students	32
2.87	Medical benefits or health insurance coverage was available to incoming students	32

2.88	Percentage of first year students receiving any form of financial assistance	32
2.89	Percentage of first year students receiving outside fellowships . .	33
2.90	Importance of student's academic merit in determining funding	33
2.91	Importance of student's future potential in profession in determining funding	33
2.92	Importance of student's financial need in determining funding .	33
2.93	Importance of length of student's enrollment in determining funding	34
2.94	Importance of student's field of specialization in determining funding	34
2.95	Importance of department's teaching needs in determining funding	34
2.96	Importance of diversity issues in determining funding	34
2.97	Importance of student's research fit with faculty interests in determining funding	35
2.98	Doctoral program offers fellowships to full-time doctoral students	35
2.99	The fellowship requires the student to teach	35
2.100	Annual remuneration of fellowship	35
2.101	Number of first year students receiving a fellowship	36
2.102	Estimate of the average financial indebtedness of a graduating doctoral student	36
2.103	Number of graduate lectures and seminars offered	36
2.104	Number of independent reading and research courses offered . . .	36
2.105	Number of thesis preparation/prospectus-writing courses offered	37
2.106	Number of other methodology, historiography, or pedagogy course not counted above	37
2.107	Number of courses required for doctoral degree	37
2.108	Maximum number of years permitted for completion of doctoral degree	37
2.109	Doctoral program requires coursework in fields other than religion	38
2.110	Doctoral program requires coursework involving the study of more than one religious tradition	38
2.111	degB.A. is required/recommended for admission to doctoral program	38
2.112	degB.A. in religion is required/recommended for admission to doctoral program	39
2.113	degM.A. in religion is required/recommended for admission to doctoral program	39
2.114	degM.A. in related field is required/recommended for admission to doctoral program	39
2.115	degMaster of Divinity is required/recommended for admission to doctoral program	39
2.116	degCollege transcript are required/recommended for admission to doctoral program	40
2.117	degGRE scores are required/recommended for admission to doctoral program	40

2.118	Number of student that teach undergraduates or MA-level students	40
2.119	Average compenstation for doctoral students for grading (per course)	40
2.120	Average annual stipend for a teaching assistant	41
2.121	Grading papers and/or exams is opt/req	41
2.122	At what point does this form of teaching typically occur?	41
2.123	Leading small discussion groups is opt/req	41
2.124	At what point does this form of teaching typically occur?	42
2.125	Teaching sections of survey courses is opt/req	42
2.126	At what point does this form of teaching typically occur?	42
2.127	Teaching sections of other courses is opt/req	42
2.128	At what point does this form of teaching typically occur?	43
2.129	Team teaching with faculty member is opt/req	43
2.130	At what point does this form of teaching typically occur?	43
2.131	Team teaching with other doctoral students is opt/req	43
2.132	At what point does this form of teaching typically occur?	44
2.133	Independently taught freshman-level courses is opt/req	44
2.134	At what point does this form of teaching typically occur?	44
2.135	Independently taught introductory foreign language courses is opt/req	44
2.136	At what point does this form of teaching typically occur?	45
2.137	Independently taught seminars is opt/req	45
2.138	At what point does this form of teaching typically occur?	45
2.139	Independently taught lecture courses is opt/req	45
2.140	At what point does this form of teaching typically occur?	46
2.141	Independently taught web-based or distance-education courses is opt/req	46
2.142	At what point does this form of teaching typically occur?	46
2.143	Advising undergraduate research projects is opt/req	46
2.144	At what point does this form of teaching typically occur?	47
2.145	Advising Master's research projects is opt/req	47
2.146	At what point does this form of teaching typically occur?	47
2.147	Graduates are prepared for teaching at research universities	47
2.148	Graduates are prepared for teaching at comprehensive four-year colleges	48
2.149	Graduates are prepared for teaching at liberal arts colleges	48
2.150	Graduates are prepared for teaching at other four-year colleges	48
2.151	Graduates are prepared for teaching at community or junior colleges	48
2.152	Graduates are prepared for teaching at secondary schools	49
2.153	nuNumber of males who left program between Fall 1995 and Summer 2000	49
2.154	Average number of years required to complete doctoral degree	49
2.155	Female students are less or more likely to leave program than male students	49

2.156 Ethnic minority students are less or more likely to leave program than other doctoral students	50
2.157 Financial strain of graduate school is important reason for leaving doctoral program	50
2.158 Personal reasons are important reasons for leaving doctoral program	50
2.159 Family reasons are important reasons for leaving doctoral program	51
2.160 Inadequate preparation for graduate school is important reason for leaving doctoral program	51
2.161 Unable to do the level of work expected is important reason for leaving doctoral program	51
2.162 Foreign language requirements is important reason for leaving doctoral program	52
2.163 Student switches to another school is important reason for leaving doctoral program	52
2.164 Student switches to another academic field is important reason for leaving doctoral program	52
2.165 Student decides to pursue another career is important reason for leaving doctoral program	53
2.166 Pessimism about career opportunities for professors is important reason for leaving doctoral program	53
2.167 Dissatisfaction with intellectual content of program is important reason for leaving doctoral program	53
2.168 Dissatisfaction with advisor/can't find an advisor is important reason for leaving doctoral program	54
2.169 Dissatisfaction with faculty members is important reason for leaving doctoral program	54
2.170 Dissatisfaction with other graduate students is important reason for leaving doctoral program	54
2.171 Dissatisfaction with other aspects of program is important reason for leaving doctoral program	55
2.172 Other reasons are important for leaving doctoral program is important reason for leaving doctoral program	55
2.173 Enrollments in doctoral program have increased/decreased since 1995/96 academic year	55
2.174 Institution caps number of enrollments in doctoral program . . .	56
2.175 Number of Black males who received doctoral degree last year . .	56
2.176 Number of Black females who received doctoral degree last year .	56
2.177 Number of Asian/Pacific Islander males who received doctoral degree last year	56
2.178 Number of Asian/Pacific Islander females who received doctoral degree last year	57
2.179 Number of white males who received doctoral degree last year . .	57
2.180 Number of white females who received doctoral degree last year .	57
2.181 Number of Hispanic males who received doctoral degree last year	57
2.182 Number of Hispanic females who received doctoral degree last year	58

2.183	Number of Native American males who received doctoral degree last year	58
2.184	Number of Native American females who received doctoral degree last year	58
2.185	Number of other males who received doctoral degree last year . .	58
2.186	Number of other females who received doctoral degree last year .	59
2.187	Number of doctoral students on job market	59
2.188	Number of student on job market who confined search to academic positions	59
2.189	There has been a significant change in the number of doctoral students entering the non-academic job market over the past 5 years	60
2.190	Over past decade, doctoral students from program have become more/less competitive in the academic job market	60
2.191	Number of student who found positions in research universities .	60
2.192	Number of student who found positions in comprehensive four-year colleges	61
2.193	Number of student who found positions in liberal arts colleges . .	61
2.194	Number of student who found positions in community colleges .	61
2.195	Number of student who found positions in secondary schools . .	61
2.196	Number of student who found positions in academic administrations	62
2.197	Number of student who found positions in divinity schools or seminaries	62
2.198	Number of student who found positions in rabbinical schools . .	62
2.199	Number of student who found positions in archives and libraries	62
2.200	Number of student who found positions in museums, museum societies, and archeological sites	63
2.201	Number of student who found positions in editing projects	63
2.202	Number of student who found positions in non-profit organizations	63
2.203	Number of student who found positions in government agencies .	63
2.204	Number of student who found positions in publishing	64
2.205	Number of student who found positions in other business	64
2.206	Number of student who found positions in post-doctoral program	64
2.207	Number of student who found positions in other position	64
2.208	Number of student who are still seeking employment	65
2.209	Number of student who found positions in churches, chaplaincies, and pastorates	65
2.210	Number of student who enrolled in law school	65

Chapter 1

Introduction

1.1 Introduction

This report provides an overview of the *2002-2003 American Academy of Religion Survey of Graduate Programs in Religion and Theology*, examining each variable in the main questionnaire by institution type.

There is one table for each variable. Tables appear in questionnaire order. For nominal and ordinal-level variables, cells indicate the *percentage of total respondents*; actual number of respondents appears along the marginals. For scalar-level variables, the mean and median are presented, along with the sample size.

1.2 Errata

Note that the table summarizing "Total funds allocated by institution to department" has a number of formatting flaws in it. This is the result of a programming bug that I have not been able to resolve as of this writing. Below is a corrected version of this table. Please note that, unlike the other tables in this report, the below version has the institution types along the x-axis. The below table was generated on 2003-Sep-21, 19:53:

Total funds allocated by institution to department

	Public	Private	Catholic	Jewish	Protestant	Total
LessThan50k	0.0	0.0	0.0	0.0	2.1	1
50-99k	4.2	10.4	2.1	2.1	12.5	15
