

## 2005-2006 Employment Survey Employer Results

To get a more accurate picture of employment trends in the field, the AAR and the SBL have expanded our data collection efforts. To this end, the EIS Center created a web-based, anonymous survey to track hirings by specialization and to collect demographic information on job candidates. In the spring of 2006, surveys were sent to the 385 employers who advertised a position in *Openings* in 2005. Of the 385 solicitations, 234 responses were received (60.78% response rate). Below are complete results. The survey is performed online, and the horizontal lines below represent a new page of questions.

1) How many complete applications did you receive for this position? (varies from 4 to 176, average of 43)

2) Did you fill the position?

- Yes (82.48%)
- No (17.52%)

(Employers who answer “yes” proceed to question 4.)

---

3) Please tell us if you plan to fill the position and, if not, why: (responses vary)  
[Employers who answer this question (i.e., did not fill the position) are directed to question 12.]
